## PRESS RELEASE

**The Swedish company  
TYSTOR AB  
is proud to present a new series of watertight lead acid battery chargers !**

The new TYSTOR WP series starts with a 12V/20A, 18V/10A and 24V/10A charger.

Watertight, power saving and accept Worldwide input 100 – 240VAC.

The chargers are build in a robust aluminium box with small dimensions easy to fit in onboard.  
Superior 7-step charging algorithm supported by inbuilt microprocessor in cooperation with an external temperature sensor and fully compensated for voltage drops of output cable.

Short circuit and reverse polarity proof.

Comes with an output connector for an external indicator panel, energy meter or alert information.

By switch selectable functions for normal charge, recond charge or as a stand alone supply.

Fulfil environmental restriction according to RoHS.

Safety certified and medical approved.

Delivered with all in and out cables.

This new series makes a good complement to over 40 existing types of in-house chargers.

3 Years Warranty at a very competitive price.
